

EXPOSED FASTENER CLADDINGS

· ROOF · WALL

Exposed Fastener Claddings are generally from our dealers. However, some are outdated claddings which are no longer available or too small a quantity to roll form. These claddings can be break formed by LMC up to 20' (6m) long using 26ga to 22ga in pre-painted or 26ga to 20ga in galvanized and galvalume. The following are some of the common profiles which are reproduced with minor modification by Lam Metal.

LMC Manufacturing Ltd

6962 Buller Ave, Burnaby, BC V5J 4S3
